# Alexa & Google Home Connectivity

"Alexa, set pool heater to 28 degrees."

"Hey Google, what is the water temperature?"

# How to Control Your Supreme Heating Pool Heat Pump with Amazon Alexa

Step 1
Set up the Smart Life App

1. Download the Smart Life app.
2. Register an account—select **Australia** when choosing your region.
3. Add your pool heat pump:
4. Open the app and tap **"+"**.
5. Make sure the heat pump is in pairing mode (check your product manual for how to do this).
6. Follow the prompts in EZ mode (fast flashing Wi-Fi light) or AP mode (slow flashing).
7. Rename your device in plain English for easier voice control (e.g., "Pool Heater").

Step 2
Link Smart Life to Alexa

- In the Alexa app, go to **More → Skills & Games.**
- Search for **Smart Life**.
- Select it, then tap Enable to Use.
- Sign in with your Smart Life account details.

Step 3
Link Your Device to Alexa

1. Once linked, ask Alexa to discover devices or tap **"Discover Devices"** in the app. Alternatively you can use voice command by saying *"Echo(or Alexa), Discover my devices."*
2. Echo will start to finding the devices which is added in Smart life APP, it will take about 20 seconds.
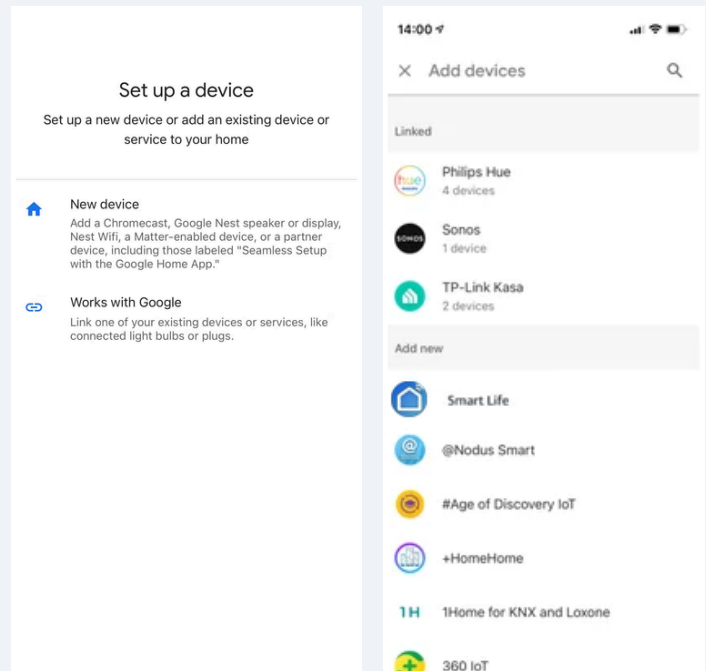

Step 4
Control your Pool Heat Pump by voice

Now you're ready to control your Supreme Heating pool heat pump hands-free. Try commands like:

"Alexa, set pool heater to 28 degrees."
"Alexa, increase pool heater by 2 degrees."
"Alexa what is the water temperature?"
